

State Farm has consistently demonstrated an interest in assisting schools in the Bloomington-Normal area, including University High School. The Laboratory Schools at Illinois State University are grateful for the many gifts and support from State Farm. Recently, State Farm donated 71 Pentium computers to the Laboratory Schools-the latest of many donations which enable our students and teachers to learn more about technology.

Additionally, State Farm has demonstrated an active interest in K-12 education by establishing a position whose function is to create linkages with schools. We applaud State Farm's efforts to assist schools. They are truly a "Good Neighbor."
